## **Interview by mail with Andrew Bunel**

**(By Heidi Duss)**

### **What inspired you to become a country singer?**

When I was about 9 years old, my Dad dared me to do a talent show, so I did. Turns out that someone in the audience really liked my voice, and wanted me to sing in their son's band. That's how I got started in music and ever since then I've been in love with it!

### **When did you start singing?**

I was around 9 - 10 year old when I discovered I really had a talent for it.

### **What's unique about you that will differentiate you from other artists?**

The fact that I'm influenced by many different genres that range from pop to country and even blues blues and R&B.

### **Who are your Ideals/values and why?**

I've learned that treating people with respect and always being gracious is a great way to live your life. In business and even my personal life, that's what I try to do. I treat people the way I want to be treated. That's how I was raised. And just saying "thank you" goes a long way.

### **You were finalist in the TV music competition series "Boy Band", please tell me about this and how you got to be in this show?**

"Boy Band" was an amazing experience that taught me how to better myself, and taught me who I really was and wanted to be. It was a competition between 50 talented guys to create America's next big boy band. I got to be on the show because one of the show's producers had reached out to me and asked if I would be interested. I flew out to Los Angeles 5 days later!

### **The song "You Where There", does it mean anything special to you? How and why did you choose this song?**

Yes, "You Were There" means a lot to me. It's my first single I've ever released and it was important to me for that first song to showcase as many of my different influences as possible. I chose the song because it had a very catchy John Mayer-ish feel to it.

### **Are you working on a EP? When are you planning for a release and how will you choose the songs for it?**

Yes, I've written almost all of the songs for my EP. The release date is hopefully sometime in the next few months. I'm excited to share it with the world.

### **Are you also planning to write your own songs?**

Yes, I write a lot of my own songs. I've been writing a lot in Nashville with quite a few songwriters who have written many hit songs with and for other artists. I've learned a lot and it's really been a blast.

### **What are your plans and dreams for the future?**

I plan on continuing to share my music and try to do my best to keep my fans updated and interested in what I'm doing.

### **What is important to you that we the public should know about you?**

My family, friends, and God are the most important things in life to me. And I'm going to continue to strive and make 2018 the best year yet!
